

I was raised in a somewhat rough household, the fact that I was raised in this household taught me to work as hard as I can in order to get what I want. Even though this ideology has resulted in me growing up a lot faster than intended it has bred a tenacious mentality that helps me achieve the results I want. It has led me to becoming an artist through three categories. Visual arts, Music contemporary, and Acting. I have been awarded in these categories at a certain point in time throughout my 4 years in highschool. Awards include , Musician of the year, two silver medals for my visually artistic pieces, and induction into the Thespian Honors society/ Tri-M music honors society. Through the experience I learned a lot from people and about myself and now I am currently teaching other people in my school the ways of leadership and true success to which I can thank this program. After my time spent here I will pursue not one but all three of the art fields and try to become the best at it. I will finish my prerequisites at NJCU then transfer to my dream college, Savannah College of Arts and Design (SCAD). And try to create a positive change in the world and give back to the people that helped me get here to begin with, because that is what true success is all about.
